

Saltus: Multi Asset Class - Balanced (PA)

Start Date	31/01/2014	Underlying Manager Charges	0.63%
Risk Mandate	Risk Band 3 (Balanced)	12m Trailing Yield	2.12%
Investment Objective	To generate growth in real terms (i.e. above inflation) over the long-term which is materially higher than the long-term return on cash, after fees and costs.		
Portfolio Structure	Building Blocks: The portfolio invests in either one or a combination of Saltus in-house funds, blended to achieve the target asset mix.		
Portfolio Restrictions	This portfolio is run to a maximum volatility budget of 67% of the MSCI All Countries World Index (GBP Hedged), measured on a rolling 36 month basis.		

Investment Philosophy

Controlling risk is at the heart of generating consistent returns. Investing should be unconstrained with no bias to any asset class, country, or style. This is so we can capitalise on the broadest set of opportunities. Choosing the most appropriate way to access the opportunity in any asset class, whether that be by partnering with specialists that we consider 'best-in-class', or through investing using an index tracker. Understanding the factors that drive the returns of each asset class and

seeking to add value by changing our exposures to such factors, based on our view of the world.

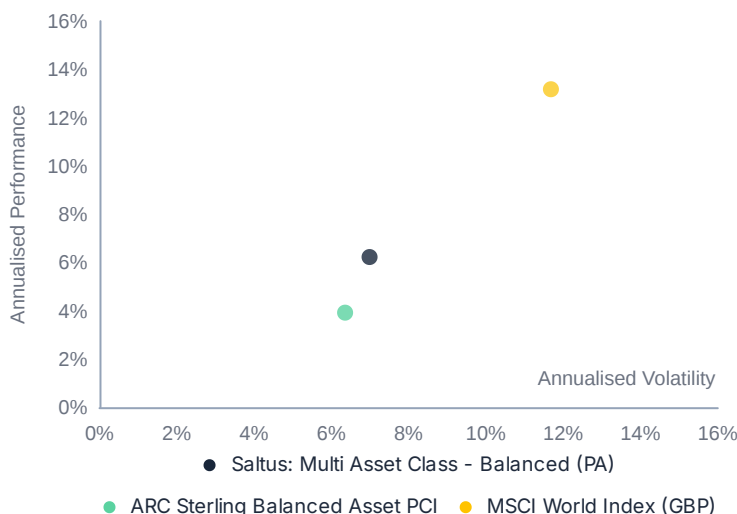

Working hard to find uncorrelated sources of return – we strive to provide superior diversification and protection than a traditional equity and bond portfolio.

Keeping costs down where appropriate – only partnering with investment managers we believe to justify their fees.
