

# Saltus: Sustainable - Unconstrained

## Portfolio management and construction

**Controlling risk** is at the heart of generating consistent returns. We use explicit rather than subjective measures of risk in portfolios.

This portfolio is run to a maximum volatility budget of 100% of the MSCI All Countries World Index (GBP Hedged), measured on a rolling 36 month basis.

**Diversifying** widely to reduce exposure to individual risk factors. This increases the likelihood of our clients reaching their goals. Being **unconstrained** allows us to seek out investments where the return is more down to the skill of the manager than the return of the market.

**Impactful Investments** - prioritising managers who actively support companies and products that are making a positive impact on society.

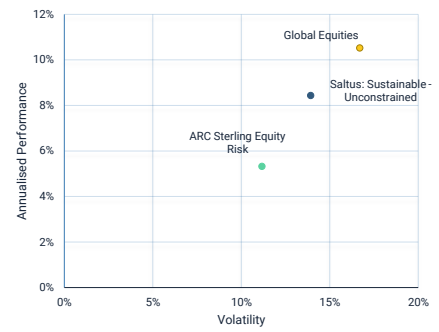

**Sustainability Integration** - utilising environmental, social and governance factors into investment decision making.

**Negative Exclusions** - avoiding companies that are engaged in activities that are inconsistent with our values and long term sustainability practices.

### Long term performance

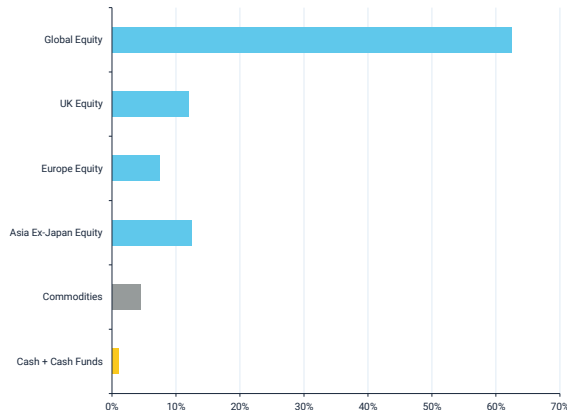

### 5-year risk vs return

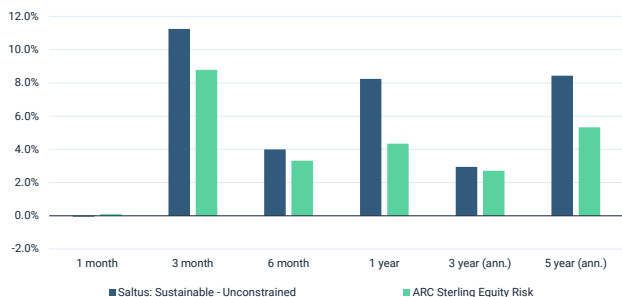

Portfolio Characteristics	
Inception Date	28 February 2014

## Saltus Asset Management

Saltus is an independently owned investment management and financial planning company, established in 2004. We manage and advise on assets of over £3 billion. We are focused on making as much money as possible per unit of risk taken, using an institutional investment process. This has led to award-winning risk-adjusted returns.

### The Saltus mission statement

We are on a journey with our clients to meet their goals, giving them peace of mind along the way. This means returning more money to our clients than they originally invested, over the agreed time horizon, after fees, charges, and inflation. Clearly this return is not guaranteed.

## Portfolio Managers

Signatory of:

**Andrew Fleming**  
Chair of Saltus Asset Management

**David Cooke**  
Chief Investment Officer

Andrew joined Saltus in 2021 as a Partner and Chairman of Saltus Asset Management. He also chairs the asset allocation committee. Andrew was previously Chief Executive of Waverton Investment Management. Before that, he was Chief Executive of Kames Capital where he was responsible for the hugely successful growth and rebranding strategy.

Andrew also advises wealthy families and is currently Non-Executive Director of Polar Global Healthcare Trust and a trustee of The Rank Foundation where he chairs the investment committee.

David is our Chief Investment Officer and sits on the investment management and asset allocation committees. David joined Saltus as a Partner in 2010. He started his career at Goldman Sachs and over the 12 years up to 2003, David worked in the UK, European and latterly Global Equities, holding the position of Executive Director. Between leaving Goldman Sachs and joining Saltus, David also worked as a Managing Director at DrKW investment bank and at CQS, one of London’s most successful hedge funds.

David has an MA in Engineering, Economics and Management Science from Lincoln College, Oxford University
